

Save energy & money all summer

Now that warm weather is here, your home may be using more energy to keep you comfortable—and your energy bill may show it. Visit BGE.COM/Save for energy and money-saving tips.

Your smart home is waiting for you

Enroll in the PeakRewardsSM Smart Thermostat program today and you'll get an ecobee3 lite Wi-Fi-enabled smart thermostat installed at no additional cost to you (a \$269 value!). Plus, you'll receive up to \$200 in bill credits June—September in your first year and up to \$100 every year after that. You'll also enjoy increased savings and the benefit of convenience and connectivity that a smart home can provide. Visit BGESavings.com/Ecobee to sign up now—as there are a limited number of thermostats available this year.

Stay cool & save money

What's better than staying cool this summer? Getting cash back when you upgrade your AC system! BGE's Smart Energy Savers Program[®] offers rebates from \$250 to \$1500 on high-efficiency cooling and heating equipment. Because air conditioning and heating account for up to 50% of your home's energy use, a properly installed and maintained system can lower energy use, improve comfort and save you money! Visit BGESmartEnergy.com/SENHVAC to see rebates on cooling and heating equipment.

EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, go to BGESmartEnergy.com.

Emission Disclosure Label

The following environmental information is for BGE customers with Standard Offer Service, which is provided to those customers who have remained with BGE and who have not chosen a competitive electricity supplier.

Power plants can generate electricity from a number of different fuel sources, resulting in different emissions. BGE reports fuel sources and emissions data to customers twice annually, allowing customers to compare data among the companies providing electricity service in Maryland.

This disclosure is required by the Maryland Public Service Commission.

Electricity Facts - PJM Regional Data

Electricity supplied from January 1, 2018 through December 31, 2018

Supply Mix

Nuclear	34.53 %
Coal	31.13 %
Natural Gas	28.68 %
Oil	0.21 %
Fuel Cell	0.03 %
Renewable Energy	
*Wind	2.63 %
*Hydroelectric	1.50 %
*Solid Waste	0.51 %
*Captured Methane Gas	0.30 %
*Solar	0.26 %
*Wood	0.18 %
*Black Liquor	0.04 %
Total	100 %
*Renewable Energy Resources Subtotal	5.42 %

Air Emissions

The amount of air emissions associated with the generation of electricity for the PJM region, which includes BGE, is shown below.

Emission Type	Lbs. per MWh	Percentage of PJM Regional Average
Nitrogen Oxides (NO _x)	0.53	100.0 %
Sulfur Dioxide (SO ₂)	0.70	100.0 %
Carbon Dioxide (CO ₂)	924	100.0 %

CO₂ is a “greenhouse gas” which may contribute to global climate change. SO₂ and NO_x released into the atmosphere react to form acid rain. Nitrogen Oxides also react to form ground level ozone, an unhealthful component of “smog”.

BGE cautions against bill payment scams and utility imposters

BGE has seen an increase in reports of individuals calling BGE customers and falsely claiming their electric or gas service will be disconnected unless payment is made. Remember, BGE representatives will never call you to ask you for cash or request that you purchase a gift card or prepaid credit card to make a payment on your bill. If you have concerns about the status of your account, call BGE at **800.685.0123**.

In addition, if someone states he or she is a BGE employee and asks to enter your home or business, ask for their employee information. If you are approached in person, ask to see photo identification, which should display the BGE logo, a name, photograph and identification number. Call BGE at **800.685.0123** and a representative can verify the employee and the nature of the visit or phone call.

Cal Ripken Sr. Foundation

BGE’s charitable Cause Initiative inspires our employees to support a non-profit organization that does great work in the communities we serve. As a part of BGE’s commitment to our community, the 2019 Cause Initiative will be supporting the Cal Ripken Sr. Foundation—a national 501(c)(3) non-profit organization whose mission is to provide life skills curriculum and mentoring on and off the playing field to underserved middle school kids. The Foundation partners with hundreds of youth-serving organizations and—through the tool of playing sports—builds stronger relationships with law enforcement. With your support BGE hopes to help build a ballpark in South Baltimore. For more information or to donate, visit ripkenfoundation.org/donate.
